

*Sauna heaters for
uncompromising wellness quality*

Made in Germany

Warmth is more than just temperature.

*It is atmosphere, tranquillity and a moment to
be completely at peace with yourself.*

It unfolds its most original effect in the sauna – supported by clear lines, high-quality materials and technology that remains discreetly in the background.

A sauna heater is not only the functional heart of the sauna, but also a defining element of the room:

it determines *the heating behaviour,*

the infusion quality

and, last but not least, *the aesthetic effect* of the cabin.

The sauna heaters presented here stand for *uncompromising quality, sophisticated construction* and timeless design. Manufactured in *Germany*, they combine precise workmanship, durable materials and a high degree of technical care. Each component meets the requirement of combining reliable performance with a clear, calm design language.

Whether in a *private retreat or a professional wellness environment*, these heaters blend harmoniously into a wide variety of room designs and create an atmosphere that makes relaxation come naturally. *Efficient heat output, balanced air convection* and a *robust design* ensure a sauna experience that will impress you time and time again.

Each model follows a *clear philosophy:*

Uncompromising quality.

Technology with substance.

Design with staying power.

The following pages are dedicated to the individual designs in detail – with their respective special features, performance data and possible applications.

Powerful sauna heater for Finnish saunas in a classic design

The *Ithaka* is a powerful sauna heater for *Finnish saunas with a classic design*. Despite its high power reserves, it impresses with its *space-saving construction* and clear, timeless design.

Der *große Abstand zwischen Steinkorb und Außenmantel* sorgt für eine *optimale Luftkonvektion*. Dadurch wird die Wärme gleichmäßig im Raum verteilt und eine *schnelle Aufheizzeit* erreicht – ideal für anspruchsvolle private und gewerbliche Saunakonzepte.

Ideal for:

Classic Finnish saunas

Hotel and spa treatments

Larger cabins with high power requirements

Features:

Outer casing:	Brushed stainless steel sheet, or with high-quality, heat-resistant coating in anthracite pearl effect
Inner casing:	Stainless steel
Rear panel:	Brushed or coated stainless steel
Stone basket:	Stainless steel
Electrical connection box:	Stainless steel on the rear
Power ratings:	9.0, 10.5, 12.0 and 15.0 kW
Connection:	400 V 3N AC 50 Hz
Stone filling:	25 kg
Dimensions:	43 x 37 x 79 cm
Installation:	Free-standing

Technical specifications:

LSG device: required from 10.5 kW
 Control unit: 3 x 16 A
 LSG: 3 x 16 A
 Mains to control unit: 5 x 2.5 mm²
 Control unit to furnace: 5 x 2.5 mm²
 Mains to LSG: 5 x 2.5 mm²
 LSG to furnace: 5 x 2.5 mm²
 Control unit to LSG: 4 x 2.5 mm²

<i>Performance according to DIN</i>	<i>cabin volume</i>	<i>device description</i>		
9.0 kW	9-14 m ²	device dimensions	net weight	Stones Weight
10.5 kW	11-15 m ²	B / T / H (cm) 43 / 37 / 79	35 kg	25 kg
12.0 kW	14-18 m ²			
15.0 kW	17-24 m ²			

Compact efficiency for the Finnish sauna

The *Kynthos* was developed for *Finnish saunas in a classic design* and combines a *compact, space-saving construction* with efficient heating performance. Its sophisticated design allows it to be harmoniously integrated into a wide variety of sauna cabins.

The *large gap between the stone basket and the outer casing* creates *optimal air convection*, ensuring *even heat distribution* and *short heating times*.

Ideal for:

Private Finnish saunas

Smaller wellness and hotel areas

Space-conscious sauna concepts

Features:

Outer jacket:	Coated stainless steel
Inner jacket:	Stainless steel
Rear wall:	Coated stainless steel
Stone basket:	Stainless steel
Electrical connection box:	Stainless steel on the rear
Power:	6.0, 7.0, 8.0 and 9.0 kW
Connection:	400 V 3N AC 50 Hz
Stone filling:	20 kg
Dimensions:	45 x 32 x 71 cm
Installation:	Free-standing design

Technical specifications:

LSG device: No
 Control unit: 3 x 16 A
 Mains to control unit: 5 x 2.5 mm²
 Control unit to oven: 5 x 2.5 mm²

<i>Performance according to DIN</i>	<i>cabin volume</i>	<i>device description</i>		
6.0 kW	4-6 m ²	device dimensions	net weight	Stones Weight
7.0 kW	6-8 m ²	B / T / H (cm) 45 / 32 / 71	28 kg	20 kg
8.0 kW	7-10 m ²			
9.0 kW	9-14 m ²			

Proven technology for the classic Finnish sauna

The *Ikarea* is a classic freestanding heater for *Finnish saunas*, based on proven technology and functional design. Its *space-saving construction* makes it a reliable solution for small to medium-sized sauna cabins.

The *large distance between the stone basket and the outer casing* supports *efficient air convection*, giving the heater a *fast heating time* and a pleasant, even sauna climate.

Ideal for:

classic Finnish saunas

private wellness areas

functional and economical projects

Features:

Outer casing:	Stainless steel sheet
Inner casing:	Galvanised sheet steel
Rear wall:	Galvanised sheet steel
Stone basket:	Stainless steel
